

# Get started!

This is how you start the ISPS E learning course.

1. To enter **ISPS Ashore** use link:

[https://training.involve.com/StenaLineISPSAshore/isps\\_land.html](https://training.involve.com/StenaLineISPSAshore/isps_land.html)

To enter **ISPS Onboard** use link:

[https://training.involve.com/StenaLineISPSOnboard/isps\\_sjo.html](https://training.involve.com/StenaLineISPSOnboard/isps_sjo.html)

2. Select **Language**.
3. Select **To registration**.
4. Enter your own **username** and **password**. You need to remember your username and password as you will require this information each time you log on to the course.

*NOTE! if you forget your username and password you must register again!*

(If working in Sweden or on a Swedish ship you also must enter your social security number.)

Enter your **first name** and your **surname**.

As a contractor you must register your **company**.

On the ashore version select the **country** where you work.

Select **town**.

On the onboard version select the **ship** you will work on.

In the menu **I'm working....** Select the area where you will be working.

When you have entered all information, choose **OK**.

5. Now you can start the course! At any time you can exit the course and then return to where you were.
6. When you have finished the course it's time for certification! You can print your diploma, if needed.

**Good luck!**
